AMENDMENTS TO THE ABSTRACT:

Please amend the original abstract as follows:

A double-sided adhesive tape dispenser. The dispenser includes [[of]] a main frame for mounting a rotatable adhesive tape roll thereon, a guide roller rotatably mounted on the main frame, and a driven roller rotatably mounted on the main frame. The driven roller is parallel to the guide roller and has an outer surface contacting an outer surface of the guide roller such that the driven roller is driven to roll by the guide roller.
